Defense Cybersecurity Capability Development Intern

Project Title	Defense Cybersecurity Capability Development Intern
Project Summary	Support and inform the development of DoD-wide cyber defense capabilities!
Country	United States

Project Description

This internship is located in the Office of the Deputy Chief Information Officer for Cybersecurity and the Chief Information Security Officer within the Office of the Secretary of Defense

This project is flexible on the work performed. We plan to leverage your skills, knowledge, abilities, and interests. Projects/work will change depending on current cybersecurity events and priorities of the DoD.

Interns will be responsible for supporting the development of DoD CIO cyber defense capabilities through research and reporting of existing and potential capabilities related to DoD CIO cyber defense priorities and challenges including:

- Commercial capabilities
- Government developed capabilities
- Future capabilities and emerging technology
